## INSTRUCTIONS

Set aside the indicated amount of time to do this activity and ensure the student is in a quiet, well-ventilated place with adequate lighting, and the chair and table are positioned to allow both feet to touch the ground and the lower and upper back are aligned with the middle of the chair rest.

Talk to him about the use of numbers in all important activities, such as video games, shopping at the market, posting on social networks, etc.

Read the words out loud and make sure the writer knows what they mean.

It is important that the student write on each line at a time and can only speak once each line is completed.
