

## A VISIT TO THE HOSPITAL

Susan is sick. Now she needs treatment because she didn't take the pills her doctor prescribed. It is sad but I will always support my friends. Today I will go to the hospital and take notes of everything I see:

Write down numbers (1 to 8) according to the order you hear each word:

  
**NURSE**  
**HAND  
SANITIZER**  
**X-RAY**  
**SYRINGES**  
**BANDAGE**  
**AMBULANCE**  
**MASK**  
**PATIENTS**

Vocabulary

SKILLS

Write down in order

## INSTRUCTIONS

Set aside the indicated amount of time to do this activity and ensure the student is in a quiet, well-ventilated place with adequate lighting. Talk to him/her about the importance of taking care of his/her health and why we should care for people who are sick. Before starting the activity, make the student knows the meaning of the words in the Answer-Key. | The student should listen to the words in order and write down the corresponding number on the top left-hand corner of each pink box. | Before scanning the QR Code and starting the activity, make sure the student understands what must be done and reads contextualization text as well as the activity command. Go for it!

## AUDIO TRANSCRIPTION

*I am taking an Uber to go to the hospital. It will take a while for me to get there because the traffic is heavy today. It seems like there was an accident. Let me take notes of the important things I see. Oh, well, there is an ambulance right in front of the hospital... Let me put my mask on before I get in... I am glad I got my hand sanitizer to avoid getting any disease... Wow, the nurses here are really kind... They must be tired because there are a lot of patients here... There is a guy with a bandage on his head ... he probably is going to get an x-ray of his skull.... I am not gonna lie, I am kind of afraid of syringes... Well, let me sit here and wait. The nurse will call my name once I'm authorized to go to my friend's room.*

## ANSWER-KEY

4. nurse

3. hand sanitizer

7. x-ray

8. syringes

6. bandage

1. ambulance

2. mask

5. patients
